

Program Description

The Early Childhood Education Associate of Science Transfer Pathway (A.S.P.) degree prepares individuals to provide healthy, safe, developmentally appropriate learning environments for children ages birth to age 8 in support of healthy communities and families. The program guides students to utilize reflective practice and intentional teaching strategies through readings, online videos and discussions, and lab/field experiences. Students will apply child development theory and developmentally appropriate practice using reflective, diverse, teaching and guidance strategies that address the needs of children, families, and communities. Enjoy hands-on experiences while participating in lab/field experiences embedded within select courses throughout all degree options, access to latest research, and convenience of online learning.

Program Outcomes

By completing this program, students will achieve the following learning outcomes:

- Integrate child development theory with appropriate practice in early care and education settings;
- Plan, prepare, and implement effective instruction;
- Demonstrate effective oral and written communications with families, coworkers, agencies, and early childhood partners;
- Incorporate and demonstrate diverse teaching and guidance strategies appropriate to addressing the needs of children and families;
- Plan, prepare, and implement developmentally appropriate and culturally relevant activities to nurture cognitive, physical, language, social and emotional development;
- Recognize the importance of play to healthy child development and incorporate play based learning into early childhood environments;
- Demonstrate the skills of observation and record keeping of child development and learning;
- Apply professional behavior in daily work with children, families, co-workers and the community;
- Create and consistently maintain an appropriate, safe, healthy learning environment for children; and
- Recognize ethical, legal and professional responsibilities.

Course Prerequisites

Some courses may require appropriate test scores or completion of basic math, basic English and/or reading courses with a “C” or better. CLC utilizes a multiple measure approach for placement which may include high school MCA, SAT, ACT scores in addition to high school GPAs. For insurance purposes, internships may require that students be 18 years old.

CLC is committed to legal affirmative action, equal opportunity, access and diversity of its campus community. This document is available in alternative formats. Consumers with hearing or speech disabilities may contact us via their preferred Telecommunication Relay Service. **Website:** <http://www.clcmn.edu> **Email:** askclc@clcmn.edu **Phone:** 800-933-0346

Admissions Requirements

Some The Early Childhood Education program requires students to pass a Minnesota background check to participate in all of the field experiences and internships. In addition, CLC is a member of E-LECT (e-learning for early childhood teachers), which offers an associate in applied science (A.A.S.) and associate of science pathway (A.S.P.) degree online. Talk with an advisor for more details.

Transfer Opportunities

The Early Childhood Education Transfer Pathway A.S. Degree offers students a powerful option: the opportunity to complete an Associate of Science degree with course credits that directly transfer to designated Early Childhood Education bachelor's degree programs at Minnesota State universities. The curriculum has been specifically designed so students completing this pathway degree and transferring to a Minnesota State university may enter with junior-year status. Courses in the Early Childhood Education Transfer Pathway associates degree will directly transfer and apply to the designated bachelor's degree programs. Students should consult with an advisor for guidance regarding how to best meet the requirements of their intended baccalaureate program. Universities within the Minnesota State system participating in the Early Childhood Education Transfer Pathway include:

- Metropolitan State University - BS
- Southwest Minnesota State University, BS
- St. Cloud State University - BS
- Winona State University - BT

Graduation Requirements

In addition to the program requirements, students must meet the following conditions in order to graduate:

1. College Cumulative GPA Requirement: cumulative grade point average (GPA) of credits attempted and completed at CLC must be at least 2.0;
2. College Technical Core GPA Requirement: cumulative GPA of credits attempted and completed towards the technical core of the diploma or degree must be at least 2.0;
3. Residency Requirement: students must complete 25% of their credits at Central Lakes College.
